

Course Rating AGM April ,2020

We are normally well into preparations for on-site course ratings by this time of year. The PNGA (Pacific Northwest Golf Association) had planned a Calibration Seminar for April in Oregon for rating team leaders. We had also planned a Zone 2 Course Rating Seminar for our own course raters in March in Kelowna. Both of these events have been cancelled. We are hoping to have an online course rating seminar with BC Golf in April.

Because of the changes in handicapping and course rating this year, I have taken the online WHS seminar this spring.

This year, we will be working with a brand new Course Rating Guide so training will be very important before we begin work on any golf course. So far, we have not received our Course Rating Guides.

If you have any questions or comments, please contact me via email or phone.
